

HOW WE HELP

- Identify tools and resources to help you maximize the vision you have.
- Help you understand how your eye condition affects how you see.
- Teach you skills for successful adjustment and coping with future changes in your vision.
- Empower you to improve your independence.
- Work with your primary care Physicain to maximize your sight.

WHAT IS LOW VISION

Low vision is vision loss that cannot be corrected with standard eyeglasses, contact lenses, medication, or surgery.

With low vision, activities like reading, shopping, cooking, and watching TV may be difficult.

COST FREE

Our services are provided free to the patient.

OUR MISSION

To empower people with vision loss by: providing individualized, comprehensive vision care and services; and providing the education needed for people to take charge of their sight.
